

Safeguarding the Reputation of Your Goods, and Your Good Name

UL-STR helps manage supply chain risk, protect brands, and launch successful products. With comprehensive knowledge of the standards impacting textile and apparel performance, construction, and composition, UL-STR's multidisciplinary softlines experts provide a vital check on product quality at every stage of production. From factory to shelf, we help ensure your products meet quality, safety and social standards.

We provide centralized management and reporting for your inspection and audit programs, coordinating via regional hubs to provide local execution.

- Top of production (TOP), in-process quality checks (DUPRO), pre-shipment and loading inspections
- Manufacturing and social compliance audits
- Raw materials traceability
- Security audits and C-TPAT certification
- Corporate social responsibility (CSR) monitoring, benchmarking, training and research

We partner with clients throughout the production cycle to assess risk and develop testing solutions to prevent potential problems before they occur.

- Development fabric testing
- Chemical management
- Restricted substances
- Care instruction and labeling
- Flammability
- Colorfastness
- Fiber identification
- Fiber content
- Dimensional stability
- Children's apparel risk assessments

Trusted the world over, UL-STR is an independent provider of quality assurance testing, audit, inspection and responsible sourcing services for the consumer products industry. Our reach encompasses over 30 countries across five continents and the capability to provide audit services in over 140 countries. Our customized solutions are tailored to help ensure products comply with industry standards, are produced to client specifications and meet consumer expectations.
