

# Footwear and Leather Goods Testing

**Footwear and leather goods manufacturers must ensure that their products comply with regulatory and industry recognized testing requirements while meeting consumer's expectations for design, fit, comfort and durability.** STR has vast experience working with clients from initial concept through final product delivery.

**STR offers a wide range of services to meet the diverse needs of footwear and leather goods companies:**

- Product testing to U.S. and European standards
- Documentation for shipping within Europe
- Testing/obtaining CE mark on leather, leather products, and footwear (France only)
- Consulting (pre and post development)
- Personal protective equipment services
- Factory capabilities audits
- Product inspections
- Factory, social and environmentally responsible assessments
- AZO dye testing

## **What distinguishes STR Footwear and Leather Goods Testing:**

Working in partnership with CTC France, a leading notified body in Europe with over 35 years of industry expertise, we offer clients maximum efficiency, technical excellence and a team of specialists.

## **STR Works For You**

Strategically located throughout the world with laboratories and inspection and auditing offices on six continents, we provide testing, audit, inspection, and responsible sourcing services. STR helps clients mitigate supply chain risks and achieve product success in the global marketplace.

***Raising the world's expectation of product quality, safety and supply chain responsibility***
