- **Thursday, Dec. 18** – CSR Reporting on Supply Chain Compliance

**Responsible
Sourcing Division**

Dec. 11 – DRIVING SOCIAL COMPLIANCE IMPROVEMENTS IN THE SUPPLY CHAIN WITH LIMITED RESOURCES (FREE!)

Learn about how to engage suppliers in the corrective action and remediation process through online data management tools that allow you to push for and track post-assessment improvements throughout your supply chain, reducing the need for re-assessments.

Dec. 9 – CHINA LABOR LAW DEBRIEF: The Latest Changes and How They May Impact Your Responsible Sourcing Program

In 2008, what new regulations will affect your suppliers and workers in China? Our experts will share information about newly-issued labor regulations as well as recent factory closures and the possible impact of these developments on companies' suppliers.

Dec. 10 – CSR IN THE USA: History and Context for Companies Entering the US Retail Market

What can European companies expect to encounter when operating in the US in terms of CSR? How responsive are US consumers to campaigns? What unique circumstances may companies run into when sourcing products within the US?

Dec. 16 – INTRODUCTION TO SOCIAL AUDITING

How do you assess for human rights abuses in a manufacturing context? What techniques do factory managers use to evade auditors? What unique circumstances can you expect to encounter in China? How do you interview workers effectively? Learn all this and more from our expert staff in this informative webinar.

Dec. 17 – HOME WORKERS IN THE SUPPLY CHAIN: Risks and Strategies for Social Compliance

Are your products or elements of your products likely to be subcontracted to homeworkers? Where are you most likely to encounter this issue? How can you address home workers in your supply chain while acknowledging both the reputational risks and valid source of income associated with homework?

Dec. 18 - CSR REPORTING ON SUPPLY CHAIN COMPLIANCE: What is the Right Level of Transparency?

Learn about what other companies are doing with regard to supply chain reporting and benchmark your level of transparency against current trends and practices. Understand what strategies can be adopted to gather supply chain data and how to mitigate risks associated with disclosure.
