

Delivering Confidence Worldwide

STR Responsible Sourcing Releases 4th Annual Report

STR Responsible Sourcing is proud to announce its [fourth annual report](#) that includes our communication on progress in furthering the United Nations Global Compact (UNGC) principles. STR-RS has been a member of the UNGC, a voluntary corporate social responsibility initiative, since 2003, and is committed to advancing the UNGC principles on human rights, labor, environment, and anti-corruption within our sphere of influence.

In the report you will find case studies and information on how we calculated our carbon footprint, how we address bribery, and how we are engaging with our stakeholders to improve the quality of our profession both within and outside of our company.

The report is available on the [UNGC website](#) and will also be posted on the [STR website](#). Whether you are an employee, client, or other interested party, we welcome and encourage your feedback on the report via our [anonymous survey](#).
