

Delivering Confidence Worldwide

STR to Exhibit at CHINAPLAS 2009

STR will participate in the upcoming CHINAPLAS 2009 Exhibition, on May 18-21 at the China Import & Export Fair Pazhou Complex, Guangzhou, PR China. Please visit us at booth N21 in Hall 9.2.

This will be the 23rd CHINAPLAS, with the show being recognized as the top international trade fair in Asia for the plastics and rubber industries. As a participant and a leading provider of restricted substance testing predicated on the China and EU RoHS Directives, Packaging and Battery Directives, and industry standards such as halogen-free requirements, STR's focus for the show will be on its core testing and consulting services.

As a UL-designated Engineering Agency, STR will also offer companies in-depth technical assistance in obtaining recognition of their products and materials. With over 40 years of experience working with Underwriters Laboratories, Inc., STR has been a key provider of testing and liaison services for the plastics industry, specializing in UL94, UL746B RTI and UL 1446 Insulation Systems programs.
